

Assumptions:

Requirements analysis should start as early as possible

6.

the earliest finish date for this project if it is scheduled to start on 2/28/22 is 6/06/2022.

7.

According to the scheduled mission plan, this is not possible. In Assignment 2, I need to add some new resources and unassign some resources from Project 1 so that I can assign them to Project 2, so the completion data for Project 1 is actually delayed.
